Changes in Local Post Office Take Effect July 1st

Postmaster Morgridge surrenders the office to his successor, Mrs. Jessica Wright, at the close of business today, this being the end of the quarter. He has waited since January to be relieved of the office which he resigned after six years of service, and with two years remaining of the term for which he was appointed. He will now be able to devote his entire time to the business of the Sierra Madre News, of which he resumed the management upon sending his resignation to the department.

During the past six years the business of the Sierra Madre office has increased 50 per cent, and as a result the office advances to second class beginning July first. This means more than twice as much allowance for clerical help in the office. In a third class office scarcely enough is allowed to pay adequate wages to one clerk and any additional help must be paid for by the postmaster. The department grants two full time clerks for the local office, beginning July 1, who will be under the civil service.

E. H. Carpenter and Miss Florence Bandy were appointed as the regular clerks under civil service rating without examination, upon recommendation of Postmaster Morgridge that they had performed efficient service for the period required by the department. The carriers, J. E. Thompson and Clarence Howard, were also retained, with W. P. Caley as substitute.

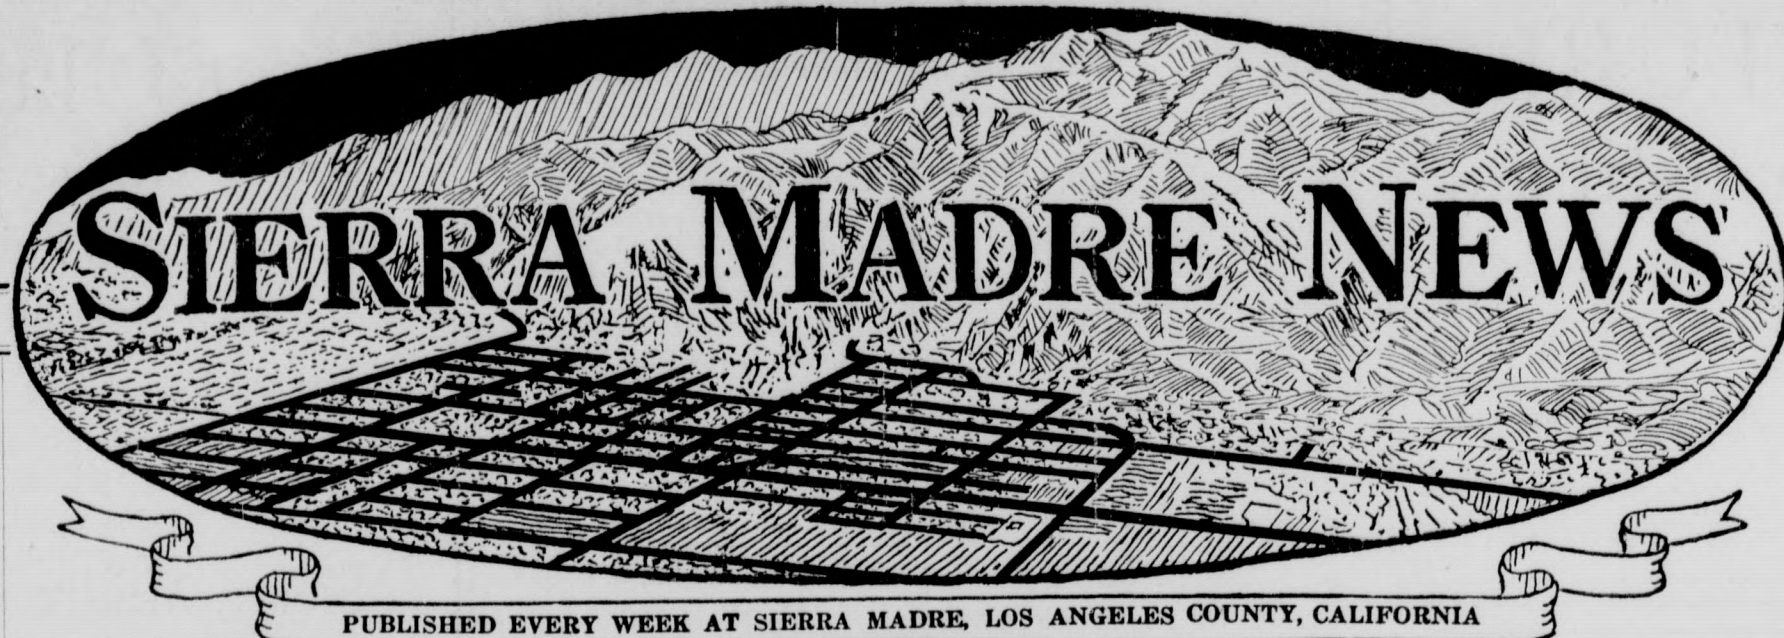

By reason of her wide acquaintance in Sierra Madre and her varied business experience, Mrs. Wright should make an efficient postmaster. She will be fortunate in having the assistance of a complete experienced working force in the office and with increased provision for office help will be able to maintain the service at a high standard.

MR. AND MRS. E. C. NEWTON ENTERTAIN FOR SCHOOLMATE

Mr. and Mrs. E. C. Newton of S. Hermosa entertained on Wednesday evening with a charmingly appointed dinner party, in honor of Mrs. Newton's life long friend and school-mate, Mrs. Charlotte Hamblin of South Pasadena, whose marriage to Louis Swaggart of Los Angeles was solemnized on Saturday following. Dinner was served in the palm house situated in the midst of the beautiful gardens, the interior of which was elaborately festooned with garlands of vines and pink rambler roses. Covers were laid for seventeen. Attached to each cleverly designed place card was a pink ribbon, the other end of which was hid in a beautiful mound of rambler roses, baby-breath and larkspur, which formed the center piece. Upon pulling the ribbons cards announcing the betrothal, were discovered. Music, toasts and story telling enlivened the dinner hour and later Professor and Mrs. Everhart of Los Angeles, gave beautiful vocal selections, after which the guests enjoyed dancing on the patio. Mr. Swaggart and Mr. Newton were boyhood friends in West Richfield, Ohio and among the guests were five couples who were girlhood friends of Mrs. Hamblin and Mrs. Newton in Cleveland, Ohio, and who are now making their home in California. Mr. Swaggart and Mrs. Hamblin were married on Saturday, June 24th, at the West Lake Congregational Church, and left immediately for Yosemite. Mr. and Mrs. Swaggart will reside temporarily at South Pasadena.

NEW PASADENA ROAD TO BE FACT SOON

The promotional work on the proposed road between Sierra Madre and Pasadena is nearly completed, according to officials of the Chamber of Commerce who have been working on the project. It is understood that the right of way has been pledged with the exception of a small portion across the estate of the late Col. Lambert which is being delayed because of the present condition of the estate. It is understood that the county authorities plan to open the road and make the necessary fills this year and allow the filling to settle a year before the surface is applied.

Lake Arrowhead Will Be Unique Among Resorts

June 23rd marks another epoch in California's glorious progress, for on this day the Southern California Editorial Association inaugurated "California's Finest Playground" by holding their annual summer outing at Lake Arrowhead in Arrowhead Woods. This outing, a pre-opening of California's newest resort, brings into activity a dream and vision that tells a story of achievement rivaling in daring and imagination any of the West's great resort developments.

The privilege of officially opening Lake Arrowhead was accorded the "Fourth Estate" for their summer outing June 23rd to June 27th because this Association more nearly represents California and the people than any other organization. While it will be some few weeks before entire development is complete and an official grand opening announced, sufficient progress has been made to demonstrate the fulness of the idea and a brief resume of the complete plans can be made.

Rare Opportunity

Early last August it was made manifest that the region then known as Little Bear Lake could be obtained by some organization of sufficient financial strength and some five thousand acres of this mountain section could be developed into what promised to be the greatest resort possibility in America. As the plans progressed a syndicate was formed comprising one of the most powerful financial groups of California. This syndicate, consisting of O. F. Brant Estate, William H. Allen, Jr., O. P. Clark, Morgan Adams, J. B. Van Nuys, Harry Lee Martin, Andrew Warmington, A. J. Salisbury, Jr., R. Frank Gross, immediately placed in the field a competent staff of engineers under the direction of A. J. Salisbury, Jr., Chief Engineer in charge of construction, with F. C. Finkle as Consulting Engineer, and within two months a complete program had been decided upon.

The first necessity of a development of this kind was naturally one of water supply, sewage, roads and transportation facilities. This branch of the organization was augmented at once by gangs of laborers, and fifteen miles of sewer lines immediately put under construction as well as road work and other engineering plans. At this time the architectural plans were discussed and McNeal Swasey, together with Harry A. McAfee, appointed architects. The decision was made that all buildings be constructed along Old Norman type of architecture. This selection was made because this type of architecture blended perfectly with the majestic setting of Arrowhead Woods.

Subdivisions Laid Out

At this point added forces of engineers began the subdivision of the entire property. These subdivisions were laid out for the purpose of selling to individuals mountain homes and lodge sites situated in the wonderful cedar groves interspersed with majestic pines of the South shore. Hundreds of delightfully secluded sites have been planned and are now on the market and will be exploited in a general sales campaign throughout Southern California. The north shore was found to be particularly adapted to large estate, and highly restricted, exclusive mountain lodges are now under construction.

The Village of Arrowhead is perhaps the first model village constructed in California. Situated on a peninsula deeply studded with firs and pines, this quaint old English village has been placed—complete in every detail, a new and concise idea was formulated by the architects. This village comprises the entire commercial activity of the mountain community, and in its quaint buildings will be housed the Art Shop, Cafeteria, General Store, Grocery, Meat Market, Drug Store, Tea Room, Art Gallery, Hardware Store, Dry Goods and Notions, Fishing Tackle, Sporting Goods, Barber Shop, Billiard Parlors, Garage and Machine Shop, Administration Building, the office of the Sales Department. A completely stocked building and lumber yards, together with a building company will give the benefit of wholesale cost of material and will construct on a cost basis.

(Continued on Page 2)

C. W. Forman Bank Director

Fills Vacancy Created By The
Resignation of J. B.
Coulston

Charles W. Forman was elected a director of the First National Bank at a meeting of the board held on Wednesday. He succeeds J. B. Coulston that pressure of duties in connection with numerous large enterprises with which he is connected made it impossible for him to attend the board meetings regularly.

Selection of Mr. Forman as a director will meet with the hearty approval of bank patrons and the public generally. Because of the splendid work done by him in the various Liberty Loan campaigns and other war activities he was recognized as a very strong contender for the title of "most useful citizen" of Sierra Madre.

The confidence in which he is held by the entire community and his wide acquaintance with people and affairs make him a valuable acquisition to the bank's directorate.

Mr. Coulston has rendered services of great value to the bank and his associates lose him with regret. During the period since the present management took control, there has been a great advance in the volume of the bank's business and the able counsel of Mr. Coulston has been of great value in its development.

MISS ROUGEE ADDRESSES BETHANY BIBLE CLASS

The rally of the Woman's Bible Class at Bethany Temple on Friday afternoon last was a decided success. About 200 were present and the able address by Miss Rougee was greatly appreciated. The growth of the local class in numbers and interest is encouraging to its leader, Miss Stone.

Edison Common Sale Discontinued

Wonderful Record, Placing Securities
In the Hands of Public
Utility Patrons

Sales of Edison common stock, which have been one of the principal financial activities of this section of the country for some time past, were discontinued at the close of business on Saturday.

Since the Southern California Edison Company began selling its common stock to its consumers, employees and the people of Central and Southern California, in 1917, over \$34,000,000 par value of this security has been purchased by over 45,000 people.

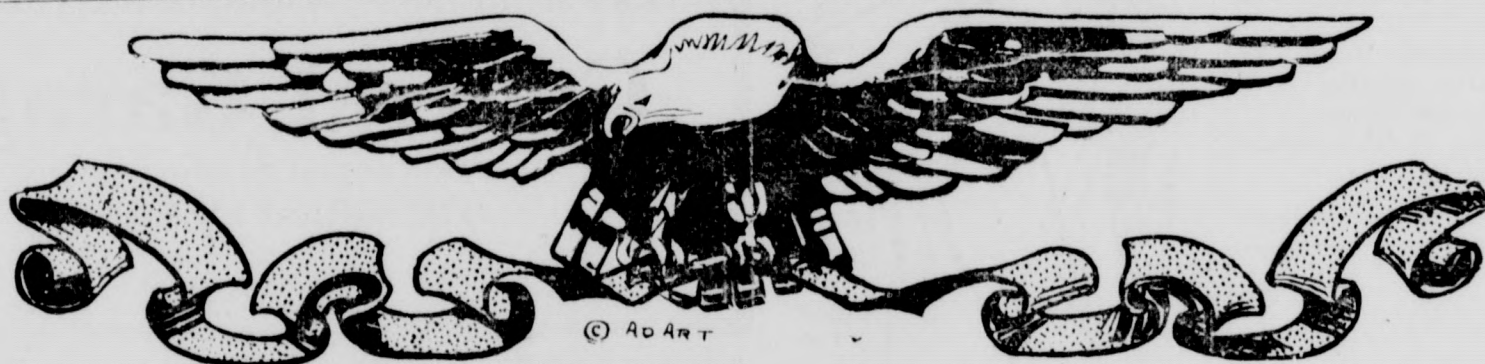

This money has been put into new electric construction, the major part of it having gone into the building of water power plants on Kern River, Big Creek and the San Joaquin River.

It represents a part of the investment which the company has made during this time in water power development for electric generation and for distribution. The remainder has been derived from the sale of company's bonds, which were for the most part negotiated in the East.

The sale of Edison Common Stock has been very active for the past six months, culminating in "John B. Miller Week," during which the employees interested a large number of the general public in purchase of the stock by explaining the many advantages of such an investment. This work was in compliment to their president, John B. Miller.

NEW OFFICERS APPOINTED

Bethany Church has appointed the following new officers, Dr. C. Boyd, superintendent of the Sunday School, Mr. William Montgomery, assistant, and Dr. H. Cram in charge of the choir and music of the church.

Celebrate The Fourth in Sierra Madre In The Good Old Fashioned Way

The Fourth may be sane in Sierra Madre but that does not mean that it will be slow or dull. For those who attend the picnic which is being planned and executed by the young people of the community, the day will be anything but dull.

The young people have planned an old fashioned picnic and flag raising, both American institutions of long standing and popularity. The program which they have arranged is the type that was and is considered the proper thing in the time of John Adams, Abraham Lincoln, Theodore Roosevelt, Woodrow Wilson and Warren G. Harding. There will be games and songs, and speeches, and coffee

and cake and guns and flags and soldiers and basket lunches and a band, and everything that is needed to make the affair a success.

The celebration will begin at 11 o'clock Tuesday morning when all will gather at the flag pole on the corner of Baldwin and Central where the flag will be unfurled with the usual ceremony, in charge of Capt. J. A. Osgood, civil war veteran. There will be a platoon of soldiers from the Balloon school to fire a salute of 21 guns as the flag is raised. Those present will sing the Star Spangled Banner. Other music will be furnished by the Sierra Madre Band and speeches will be made by veterans.

After the ceremony at the flag pole, the crowd will go to the Stocker field on East Live Oak where baskets of good things to eat will be spread out in picnic style. Beside the lunch, housewives are asked to bring tin cups and sugar for their coffee. Coffee will be supplied by the young people for one cent per cup. Ice cream will be supplied at six cents per plate.

One of the features of the picnic will be a baby parking place which will be arranged so that the babies will not only be safe but will enjoy the outing in their own way. There will also be a swimming pool for the boys and a dancing platform for every one. The platform will remain after the

picnic and will be used for future picnics.

A number of sports have been provided for the afternoon program. There will be a 5-inning indoor baseball game between the married and the unmarried men. Other events are a three-legged race, 50-yard dash for boys under ten years, 100-yard dash for boys 11 to 15 years, a peanut race for girls, a 100-yard dash for men, a needle and thread race for both boys and girls, a potato race for married women, a slow motion race open to all and a sack race for boys and girls under 12.

A silver collection will be taken to help meet the expenses of the picnic.

SIERRA MADRE BAND LARGE ORGANIZATION

The Sierra Madre band, which was organized some time ago under the leadership of E. P. Melvin has been steadily growing since the first meeting of the members until it now has a personnel of about 30 musicians. The members of the band have been working steadily and Director Melvin announced this week that concerts will be the regular thing in Sierra Madre in a short time. The bandstand on North Baldwin will be repaired and a concert will probably be given every week. The new musical organization will make its official bow at the picnic next Tuesday.

CARD OF THANKS

With sincere appreciation we wish to thank the Pasadena Post of the American Legion and those who lent their aid and sympathy during the illness and death of Vernon W. Triplett, our beloved son and brother.
MRS. SARA M. TRIPLETT,
MRS. HARRY S. PHILLIPS,
MRS. GEO. O. SEELEY.

WEBSTER AWARDED SCHOOL CONTRACT

The contract for the new addition to the Sierra Madre School has been awarded to T. M. Webster and the foundation and concrete work for the addition has been awarded to Harvey Steinberger. The combined contracts were bid in for the amount of \$17,000. The plumbing, lighting and wiring contracts have not been let. The work of excavating has already begun and it is understood that the work will be rushed forward in order to have the building completed and furnished by the time school is opened in the fall.

SIERRA MADRE CAR STOLEN IN L. A.

A Ford car belonging to E. P. Melvin of Sierra Madre was stolen by bandits in Los Angeles Wednesday sometime between 2 and 6 o'clock. Mr. Melvin left his car on Olive at Second street at 2 o'clock Wednesday afternoon. When he returned in the evening the car was missing. No trace of the absconded Lizzie has been found. The car was partially covered by insurance.

MRS. CARPENTER PASSES AT WINDSOR MANOR

Mrs. Rebecca A. Carpenter passed away on Tuesday at Windsor Manor, the home of her daughter and son-in-law, Rev. and Mrs. John J. De Windsor. Mrs. Carpenter was 79 years of age and had been in failing health for a number of years. She was a native of Ohio. Funeral services were held on Thursday morning at 11 o'clock at the chapel of A. T. Gay, Rev. Dr. Geo. H. Cornell being in charge. The remains were taken to Mountain View Cemetery for cremation.

STEWART AWAITS TRIP TO NEW ENGLAND

Donald D. Stewart, who was arrested June 20th at 354 Sycamore Place by officers Udell and Cox, is in the county jail waiting to be taken to Boston, Mass., where he will face a charge of bigamy. Stewart was residing on Sycamore Place and Ethel Turner Osbaldeston, who posed sometimes as his wife and other times as his sister, was arrested with him. Stewart's baggage still remains in the possession of the Sierra Madre officers.

CONSTRUCTION TO BEGIN ON CHURCH HALL

A building permit was taken out yesterday for the new \$7,000 social hall and parish house which will be added to the present Episcopal church building at Baldwin and Laurel. The new hall will be furnished with all the equipment of a modern church plant and will also be provided with quarters for the rector. The permit was taken out by T. M. Webster, the contractor, and preliminary work has already started.

STUDYING PROPHET DANIEL

Are you interested in prophecy? Bethany Temple Bible Class will begin the study of Daniel's prophecies Sunday morning. How much of the prophecy in the second chapter has been fulfilled and become history and do present world conditions indicate the possible fulfillment of the remainder of that prophecy in the near future? A special invitation is extended to Hebrews. Visitors always welcome. 9:45 Temple Auditorium.

INDIVIDUAL RESPONSIBILITY

Whenever anything goes wrong
They pass a law precise and strong,
To operate without delay
And make things run the proper way.
And when there seems to be a flaw
In the mechanic's art,
I wish that they would pass a law
To make the flivver start.

Yet when a law gets under way
It often works so fast they say
That it induces some mistakes,
And has us reaching for the brakes.
When on a reckless speed hurrah
The motor seeks to hop,
I wish that they would pass a law
To make my flivver stop.

Alas, though laws show brains intense,
A lot depends on common sense
Shown by the individual man,
Who tries to do the best he can.
While legislative wisdom deep
May elevate the soul,
The driver is the one to keep
The flivver 'neath control.
—Washington Star

CENSUS TAKEN BY ANCIENTS

Records Show That Babylonians Had
Figures Made in Connection
With Country's Fiscal Control.

When and where was the first census
taken? It is said that there was a
census system in Babylon before
3800 B. C. in connection with a com-
plete system of fiscal control. There
are at the British museum some of the
returns of a later census in Babylon
in the form of a part of 30,000 tablets
dated some 2,500 to 2,300 B. C. These
tablets deal with the administration
of the temple property, with agricul-
ture, stock raising, and the produce of
farms and gardens. In 1017 B. C. Joab
was directed by King David to go
through all the tribes of Israel from
Dan to Beersheba and to number the
people. Joab's census gave the num-
ber of men of Judah and Israel "who
drew the sword" in one case at 1,300,
000, and another 1,570,000, but the
first figure was stated to be incom-
plete for after numbering for nine
months and twenty days, Joab "fin-
ished not, because there fell wrath
for it against Israel."

THOSE DEAR GIRLS
"I let Jack kiss me on condition
that he wouldn't mention it."
"I suppose you wanted to break
the news yourself."

This Cat Very Much at Home.
A Nova Scotia farmer's wife was
working about her house one morning
when she was surprised by seeing the
latch of the door lift several times.
On opening the door she found one of
her cats at the latch. Since then the
cat does not wait to be let in, it just
lifts the latch and walks in. The
same cat invariably goes with her at
noon to the henhouse and has lunch
with the fowls. It sleeps in front of
one of the horses at night, and is fre-
quently seen seated on one of the
cows' backs taking its morning sun-
bath. The cat takes its breakfast di-
rect from the cow. One case of farm
product going straight from producer
to consumer.

Claims Record for Hen.
A man living in Union Rock, near
Belvidere, N. J., has a Plymouth Rock
hen which is ready to meet all comers
as claimants for the title of champion
egg producer of the United States and
Canada. According to the owner this
bird lays two eggs a day on most days,
and is so ashamed of her performance
when she produces a single egg that
she withholds the usual boastful
cackle. He says she has maintained
the two-day speed since last spring,
with very few holidays. The eggs, ac-
cording to the owner, are well formed
and of normal size.

A Doc for a Dime.
An Indianapolis physician on his
way downtown one evening recently
was approached by a man who asked
for a lift.

"Say, Doc, can you let me have a
dime?" asked the man.
"Why, certainly," said the physi-
cian, "but where have I known you?"
"You don't know me," said the man.
"Then how did you know I was a
doctor?"
"Oh, I call everybody Doc."—In-
dianapolis News.

Russia's Sharped Finances.
The budget of the soviet govern-
ment for 1922, presented to the con-
gress of soviets by M. Krestinsky, the
commissar of finance, and finally
adopted by it, carries appropriations
aggregating 1,877,000,000 gold rubles.
The estimated income from railways,
licenses, leases, customs, is 575,000,000
gold rubles, leaving an expected deficit
of 1,302,000,000 gold rubles. (A gold
ruble is equivalent to about 51 cents.)

Remarkable Animal Freak.
A strange animal is on exhibition in
the St. John's museum, says a New-
foundland reader. It is a cat with
the wings of a bird and was killed at
Greenspond. It may be stated that
the animal could not fly.

Attractive Issue Closed

Due to the unprecedented sale of Edison Common Capital
Stock during the past several months, Southern California
Edison Company, as of this date, announce the closing of
their offering of this attractive security.

During the past year the people of Southern and Central
California have taken advantage of the Company's offer to
become partners in this stable utility in such number and
with such enthusiasm—knowing the benefits accruing from
such an investment—that no more of this stock is now avail-
able for distribution.

The confidence of the general public in securities of this
organization is evidenced by the fact that over 47,000 stock-
holders are now benefiting by investment in Edison Capital
Stock.

Here's a sure enough health and comfort hint for warm, summery weather—drink plenty of refreshing iced-drinks!

There are any number of *flavory, palate-tickling* beverages, so easily and quickly made when you have *pure DISTILLED-WATER ice*. Delicious *lemonade* and *orangeade*, all sorts of cool, appetite-appealing *fruit punches*, good, old-fashioned *iced tea*—by the way, do you know the right way to make iced tea?

Brew your favorite tea in the usual manner, but do not allow it to cool before being iced, as this imparts a slightly bitter taste to the tea.

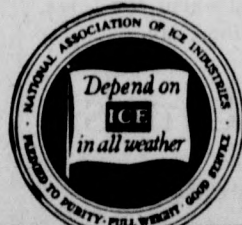

The hot tea should be poured over ice, chilling it rapidly. Add sugar, if desired, and when thoroughly chilled add a dash of lemon juice. A quarter of a lemon will flavor a large glass.

These are only a few suggestions you can follow when you keep plenty of ice always on hand; and it never takes more than a moment to chip some pure *DISTILLED-WATER ice*, place it in a tall, thin tumbler of water, and you have a "thirst-quencher" hard to beat!

SIERRA MADRE WOMAN'S CLUB

By Besse Palmer Rhodes

Regular Meeting

On Monday, June 26, the Woman's Club held its last meeting for this season. Under the direction of Mrs. Roland Adams, the interior decorations at the club house were unusually pretty, flowers in the club colors, blue and gold were combined with fern and other greenery.

After opening the meeting the president, Mrs. Milton Steinberger spoke at length concerning her experiences of the past season, lovingly commended her board for their loyalty and spoke appreciatively of the splendid work of the chairmen committees. She extended to each a little gift as a token of her love.

Yearly reports were read by the following persons: Vice-president and chairman of programs, Mrs. Frank Hart; recording secretary, Mrs. W. R. Morgan; corresponding secretary and chairman of rentals, Mrs. Spencer Howard; chairman of hospitality, Mrs. H. W. Glidden; chairman of ways and means, Mrs. W. E. Walker; chairman of courtesy and house furnishing, Mrs. W. H. Ingraham; chairman of house, Mrs. W. S. Andrews; chairman of decorating, Mrs. Roland A. Adams; chairman of membership, Mrs. E. C. Newton; chairman of drama, Mrs. F. Wright; chairman of press, Mrs. Palmer Rhodes and Mrs. J. C. Dickson; chairman of monthly luncheons, Mrs. M. D. Welsher and from the treasurer, Mrs. W. R. Lees. Each report was splendid and showed the upward tendency in each phase of club activity.

The Treasurer's report showed every dollar of debt on the club house and every cent of indebtedness of any other kind, paid to date with a small balance in the bank as a nest egg for the in-coming board.

The president presented a large silk flag to the club, and as she placed it in the position it will occupy on the stage, the members arose as one and pledged their allegiance. Then followed the burning of the mortgage, and as the president dropped the last burning bit of paper, the strains of "Praise God From Whom all Blessings Flow" were sung with feeling by all present.

Just at this point the announcement that Mrs. W. R. Morgan would give several vocal numbers brought loud applause. Mrs. Morgan sang, Love Like the Dawn Came Stealing, by Cadman; May, the Maiden, by John Carpenter; and Trees, by Joyce Kilmer, music by Oscar Rasbach, Mr. Rasbach playing the accompaniment.

A resume of the year's work was then read by Mrs. Rhodes, club historian. A supplementary report of the election board was made by Mrs. W. E. Walker and approved by the house.

The president, then introduced Mrs. J. A. Osgood, president emerita, who after a few sincere expressions of approval and congratulation to the outgoing officers, conducted the installation ceremony; introducing the following ladies as the executive board for the coming year. Vice-president, Mrs. Mrs. W. J. Lawless; recording secretary, Mrs. J. N. Hawks; corresponding secretary, Mrs. E. H. Carpenter; treasurer, Miss Eleanor Bayne; Directors, Mrs. N. H. Goodenow, Mrs.

Around Our Town

Mr. and Mrs. E. H. Reynolds left Tuesday last for an extended trip to Honolulu and possibly the Orient.

Mrs. Y. A. Forthmann has rented a cottage at 146 Auburn Avenue and Mrs. Louise Rhodes and Mrs. Julia Bergin have rented the cottage belonging to Mrs. Emma Wallace at 61 Bonita Ave., for the summer. The three ladies are the owners of the White King Soap company of Los Angeles.

Miss Alice Stanley leaves today for Claremont where she will represent the Christian Endeavor Society of the Congregational Church at a young people's conference being held at the Pomona College. The Endeavor Society plans to motor to Claremont Sunday afternoon to attend one of the sessions in a body.

News Wantads bring results.

GAISER-FRASER

Mrs. Amy B. Gaiser and Mr. William H. Fraser of Sierra Madre were quietly married on Wednesday by Judge J. Walter Hanby of Los Angeles and have since been receiving the congratulations of their surprised friends. Mrs. Fraser has for some time conducted a convalescent home at 238 N. Auburn and they will continue to reside there. Mrs. Fraser is an author whose work has appeared in various magazines and has for a year or more resided on Sycamore Place.

JOHN A. BRADSHAW CALLED

The final summons came to John A. Bradshaw of 171 E. Montecito Ave., on Thursday morning after a long illness. Mr. and Mrs. Bradshaw had residents of Sierra Madre about two years, coming here from their home near Decatur, Ill., in the hope of benefiting Mr. Bradshaw's failing health. They had won many friends during their residence here. In addition to his wife, Mr. Bradshaw leaves a son, Glen Bradshaw who, with his wife, was with his father at the end. The body was taken to the A. T. Gay undertaking parlors and final interment will take place at Decatur, Ill.

MONEY RETURNS

OLD MAN HARD TIMES is in the hands of the undertaker. None mourns him except the crafty few who always make money during hard times by applying the screws to the unfortunates who get caught in the corner.

All signs point to a steady return of general prosperity throughout the nation. Money rates are down, encouraging business activity. Failures are decreasing. Automobile industry is near capacity. New building construction started in April broke all records for a single month. And May figures, when compiled, apparently will show that the fast pace is being maintained.

So it goes in nearly every industry. Prosperity returns. So far, it is mostly in the form of a gain in physical volume of business, but money prosperity will follow.

THOMAS A. EDISON said last February: "As I approach my 75th birthday, let me repeat that I have been through five business depressions during my business life. They all act alike."

Edison is right, with the single exception that the present recovery comes sooner and faster than formerly.

TAKE pig iron production, the barometer of general business conditions. The panic of 1907 caused pig iron output to drop until it reached the low point of 1,081,813 gross tons in January, 1908. It was 18 months before pig iron output again reached the normal 2,000,000-tons-a-month point.

In the recent business depression, pig iron output reached its low point (864,553 tons) last July. In nine months it has climbed to and passed the 2,000,000-tons-a-month point, and the climb has been at a rate that should, by late summer, bring production to the average of 1913, a good normal year.

"So goes the iron and steel industry, so goes general business." That old saying holds as good today as when our grandfathers said it in 1873.

Hen Swam River.

An interesting reader who lives close to a large river, says that last summer, greatly to his amazement he saw one of his hens, a white leghorn, on the other side of the river. One of his family went across but when he got nearly to the other side the hen started to fly but fell into the water and then swam the remainder of the distance home.

Must Know a Heap.

"A librarian has to know all the books in the world, I suppose?"
"Yes, and many that do not exist."
A lady just asked me for the "Count of Monte Carlo."—Louisville Courier-Journal.

Man of Mixed Emotions.

A Newark man went home with a white carnation wreath "to my beloved wife, from her loving husband," and then tried to kill her with a hatchet.—Exchange.

News Wantads bring results.

Working of True Love.

Put a seal upon your lips, and forget what you have done. After you have been kind, after love has stolen forth into the world and done its beautiful work, go back into the shade again and say nothing about it. Love hides even from itself.—Professor Drummond.

MICKIE SAYS

"TH' MERCHANT WHO MOANS HE 'AINT ADVERTISIN' BECUZ FOLKS AINT BUYIN' IS ALL MIXED UP! MEBBE FOLKS AINT BUYIN' BECUZ HE AINT ADVERTISING!"

SOCIAL & PERSONAL

Miss Helen Hopkins of Watsonville is visiting her aunt and uncle, Mr. and Mrs. N. W. Tarr.

F. D. Adair of Hollywood has taken a cottage at 65 Victoria Lane during the summer months.

Mrs. Bessie Scott and son George of Fresno are visiting at the home of Mr. and Mrs. William Doty this week.

Miss Lillian Moore of Los Angeles entertained a small party of friends at a luncheon at the Venture Inn Thursday.

Mrs. Monaco, who has been visiting her aunt, Mrs. Fred Griebenow for the last two months leaves today for her home in Chicago.

Miss Ruth Celeen, who has been living in Sierra Madre for several months will return to her home in Sioux City, Ia., next week.

Mrs. George Oswald and daughter Dolores will leave tomorrow morning for a two weeks visit in San Francisco, San Jose and Santa Clara.

Mrs. J. F. Sadler entertained a few of the former neighbors of Mrs. S. G. Harless at her home 145 San Gabriel Court, Wednesday afternoon.

Mr. and Mrs. James Spaulding of Lawrence, Kansas, spent the weekend visiting at the home of Mr. and Mrs. C. F. Stanley, 126 East Mira Monte.

Michael Kehoe has sold his home at 381 Mariposa to David Arthur, formerly of Atlantic City. Mr. Arthur has moved his family to Sierra Madre and expects to make this his future home.

Mrs. Donald Tarr was the hostess on Wednesday afternoon at a delightful swimming party. Those who enjoyed the aquatic sports were, Mrs. Hall Perry, Mrs. Victor Hill, Mrs. Roland Adams, Mrs. Guy Steinberger and Mrs. George Starr.

Owing to the fact that next Tuesday is the Fourth of July, a holiday, and the day of the Community Celebration, the Chamber of Commerce luncheon for that day is postponed one week. The next regular luncheon will be held on Tuesday, July 11th.

ENDEAVORERS HOLD KID PARTY

The Senior Endeavor Society of the Congregational Church held a "Kid Party," at the home of Miss Alice Stnaely, 126 East Mira Monte Wednesday night. The guests came dressed in childish attire and the program was such as would amuse the most childish present.

NOTICE INVITING BIDS BY THE CITY OF SIERRA MADRE, CALIFORNIA, FOR THE CONSTRUCTION OF A COMBINATION SETTLING BASIN AND RESERVOIR, AND FOR FURNISHING ALL LABOR AND MATERIALS FOR THE SAME.

Public Notice is hereby given that sealed bids will be received by the City Clerk of the City of Sierra Madre, California, until 7:30 P. M., Thursday, July 6, 1922, for the construction of a combination settling basin and reservoir and for furnishing all labor and materials therefor according to plans and specifications adopted by the Board of Trustees of said City, and on file in the office of the City Clerk of said City, which said plans and specifications are hereby referred to and made a part of this notice.

Said bids must be made on forms which will be furnished by the said City Clerk upon application.

A certified or cashier's check on some bank in the County of Los Angeles, payable to the order of the President of the Board of Trustees of the City of Sierra Madre, for a sum equal to five per cent of the amount of the bid must accompany each bid as a guarantee that the bidder will enter into a contract, if awarded to him, in conformity with his bid.

The successful bidder will be required to give bonds in the amount equal to twenty-five per cent of the contract price for the faithful performance of his contract, and in the amount equal to five per cent of the contract price as a statutory bond for the payment of labor and materials.

The Board of Trustees reserves the right to reject any and all bids hereunder.

By order of the Board of Trustees of the City of Sierra Madre, California.

L. DIETZ,
 City Clerk of the City of Sierra Madre, California.
 June 15, 1922.

John J. Sammon has purchased a home of R. C. Ferguson at 58 West Grandview.

Mrs. S. G. Harless of El Paso, Tex., is visiting in Sierra Madre with her daughter, Mrs. Charles Klunk.

Mr. and Mrs. Ben Shuchalter of Hollywood have taken a cottage at 324 Sycamore Place for the summer months.

Mr. and Mrs. Herbert Peterson of Los Angeles were the guests of Mr. and Mrs. Victor Hill over the weekend.

Mrs. J. P. O'Neil and Miss Fannie Troupes will arrive from Oklahoma City July 4, for a short visit with Maj. and Mrs. C. S. Floyd.

A building permit was issued this week to W. E. Walker for the construction of a new modern cottage at 650 West Montecito.

Edwin Ward will leave next week for Long Island, New York, for a visit with relatives. He expects to be gone until Christmas.

Mrs. Hugh Mercer left Thursday for her home in Houston, Texas, after visiting for several weeks at the home of her sister, Mrs. C. S. Floyd.

Mr. and Mrs. William Doty, 246 North Lima entertained Miss Ruth Celeen and Miss Ethel Proctor of Santa Barbara at dinner last Saturday evening.

Mr. and Mrs. James Hawks and family will leave the later part of next week for a vacation trip to San Francisco and other Northern California points.

Miss Frances Parks of Hollywood was the week end guest of Mr. and Mrs. Roland Adams, attending the dinner dance at the Women's Club on Friday evening.

Mr. and Mrs. F. A. Shaffer of Globe, Arizona will arrive in Sierra Madre Sunday for a visit with Mr. Shaffer's father, Daniel Shaffer and sister, Mrs. Albert Wheeling.

E. Keferstein of Los Angeles has purchased a cottage formerly owned by George Attridge at 50 Esperanza. It is understood that Mr. Keferstein will move his family to Sierra Madre in a few days.

A Sane Fourth, But--

Somehow burns will happen on that glorious day.

THE RAWLEIGH MAN

will have bandages, salves and ointments on hand at the picnic grounds and will be glad to render first aid.

For powder burns occurring at home or where physician is not available, if skin is unbroken, immerse at once in lukewarm water. Spread ointment or healing salve on a cloth large enough to cover the burn. Remove burned member from water, dry slightly by patting and cover at once with cloth. Cover the whole with gauze bandage. Change dressings every twelve hours and do not break blisters with the fingers. Where skin is broken, cover with clean gauze and salve to shut out the air until a physician can be consulted. Have all severe burns cared for to prevent development of Tetanus or lock jaw, the germs of which are very prevalent.

Have you ordered Rawleigh's Prepared Mustard for that picnic lunch? There is none better.

THE BOOKSTALL

It stands in a winding street,
A quiet and restful nook,
Apart from the endless beat
Of the noisy heart of Trade;
There's never a spot more cool
Of a hot midsummer day
By the brink of a forest pool,
Or the bank of a crystal brook
In the maples' breezy shade,
Than the bookstall old and gray.

Here are precious gems of thought
That were quarried long ago,
Some in vellum bound, and wrought
With letters and lines of gold;
Here are curious rows of "calf"
And per chance an Elzevir;
Here are countless "mo" of chaff,
And a parchment folio,
Like leaves that are cracked with cold,
All puckered and brown and sear.

In every age and clime
Live the monarchs of the brain;
And the lords of prose and rhyme,
Years after the long last sleep
Has come to the kings of earth
And their names have passed away,
Rule on through death and birth;
And the thrones of their domain
Are found where the shades are deep,
In the bookstall old and gray.
—Clinton Scollard.

**Don't Neglect Your Floors**It's fun to paint or varnish them
yourself—easy too

FLOORS that have a good finish do not get scarred and worn, the finish takes the wear. Well finished floors always look better, too.

If your floors need refinishing and you can't get a painter to do the work, refinish them yourself. You can do it easily—it's really fun.

Our "Home Service Paint Department" was organized just to help women refinish things about the home. Write for free advice, telling us what you want to refinish and how you want it to look.

Our experts will explain every step of the work and recommend the right materials, brushes, etc.

There are special Fuller Paints, Varnishes, Enamels, Wall

Finishes and Stains for you to use. They are the best products of their kind that we know and we have been making such products for 73 years.

Take advantage of Fuller's Free Advice and Fuller's Products in beautifying your home. The results will surprise you. The work will fascinate you.

Fifteen-for-Floors

Fifteen-for-Floors Varnish. This varnish is unequalled for beauty of finish, durability and ease of application. Rolling furniture, boiling water, heel marks, everyday wear and tear have no effect on this glossy, elastic and durable finish.

We also make Decorat Varnish Stains, All-purpose Varnishes, Rubber-Cement Floor Paint, Washable Wall Finish, Silkenwhite Enamel, Fuller's Hot Water Wall Finish (Kalsomine), Porch and Step Paint, and PIONEER WHITE LEAD.

Dr. Lee DeForest Was a
Big Improvement.

Any device which will pass electricity in one direction and will wholly or partially obstruct the flow in the opposite direction is termed a rectifier, because when connected in the path of an alternating current it will suppress one-half of each cycle and therefore the circuit will be traversed by pulsating direct current. A rectifier also is said to possess unidirectional conductivity, meaning, of course, that it will conduct electricity in one di-

rection of the grid circuit I-J-K-L. The battery in the grid circuit is called the "C" battery.

As a start let us suppose that "C" battery voltage is zero. The operation of the three-electrode tube would then be exactly like that of a two-electrode tube. Just as though there were no grid. Like a two-electrode tube when the filament C-D is brought to incandescence by the "A" battery a steady stream of electrons will be given off, which will be drawn over to the plate E. Plate E is maintained at a positive potential with respect to the filament by the "B" battery.

Now if the grid is made positive with respect to the filament, it is possible to accelerate the flow of the electron stream from the filament to the plate; if the grid is made negative with respect to the filament, the flow of the electron stream from the filament to the plate will be retarded. Or in other words, by making the grid positive or negative with respect to the filament, it is possible to increase or counteract the space charge. The third electrode or grid thus offers a means of controlling the current in the

**Figure VI**

rection only. Its ability to rectify currents of extremely high frequency determines its application in radio.

Due to its ability to rectify high frequency alternating currents the two-element (filament and plate) vacuum tube can be used in a radio receiver as a detector.

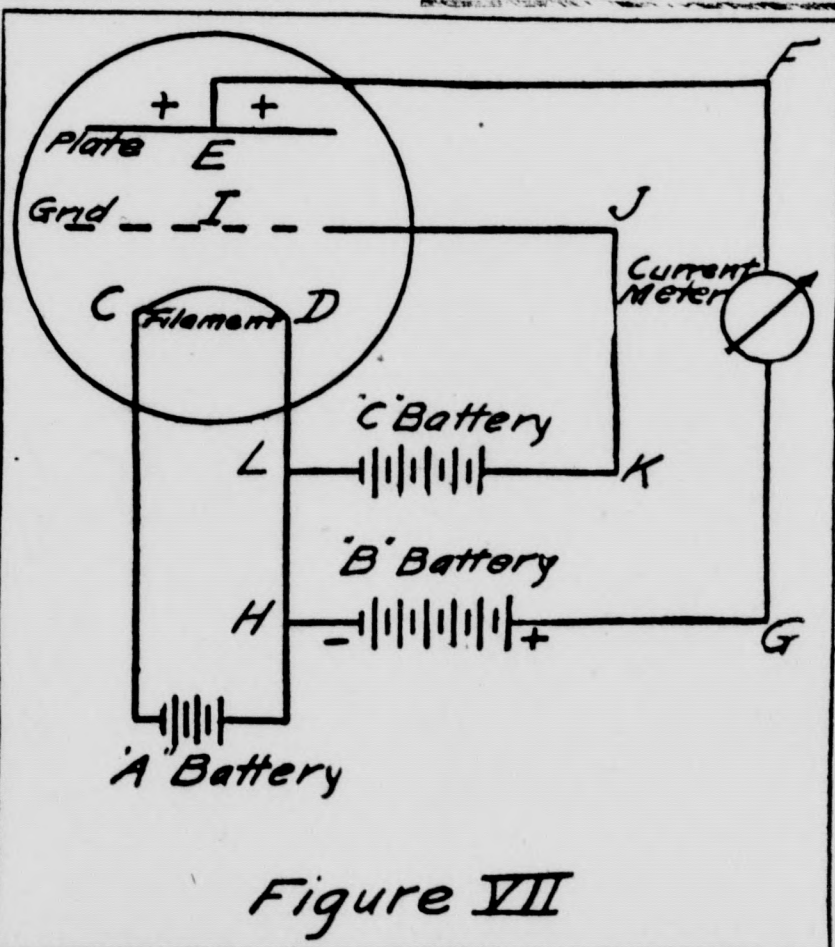

Fig. VI is a simple radio receiving circuit employing this type of two-element vacuum tube in place of a crystal detector.

Dr. J. A. Fleming of London, England, was the first to use a two-element tube of the type just described as a medium of rectifying high frequency radio currents. Fleming called his product a valve because it would let current flow in one direction but not in the other direction. The Fleming valve as a forerunner of the vacu-

plate circuit without changing the plate potential or the filament temperature.

The characteristic curve of a three-electrode vacuum tube is shown in Fig. VIII. This diagram shows the relation of grid potential to plate current, assuming that the filament temperature and plate voltage remain constant.

It can be seen from the curve that by applying a negative potential of value E to the grid, the plate current can be reduced to zero. The negative charge on the grid will have the effect of a negative potential E with respect to the filament, making the negative charge so strong around the filament that the electrons cannot leave it. On the other hand, if a positive potential of value F be applied

**Figure VII**

um tube of today marked a very important step in the progress of the radio art. The Fleming valve, however, in its original form was not much better than other forms of rectifiers then in use and, owing to the greater ruggedness and ease of manipulation of the latter, did not come into general use as a detector.

Dr. Lee DeForest, an American, greatly improved the Fleming valve by adding a third electrode called the grid, which served the function of a control element and thus made it possible to utilize the feeble incoming signal currents to control more powerful local currents. The three-electrode vacuum tube of DeForest is the tube used so extensively today.

The third element which is called a grid and from which the three-electrode vacuum tube derives its name was placed by DeForest between the filament and the plate in the path of the electrons. The grid is a perforated plate or mesh of fine wire through the openings of which the electrons must pass in their journey from the filament to the plate.

Fig. VII is a diagrammatic sketch of the circuits of a three-electrode vacuum tube and is identical to the same as the sketch in Fig. III for a two-element vacuum tube with the ad-

dition of the grid with respect to the filament, the maximum or saturation current will flow in the plate circuit. Applying a greater positive potential than F to the grid with respect to the filament will not cause an increase in the

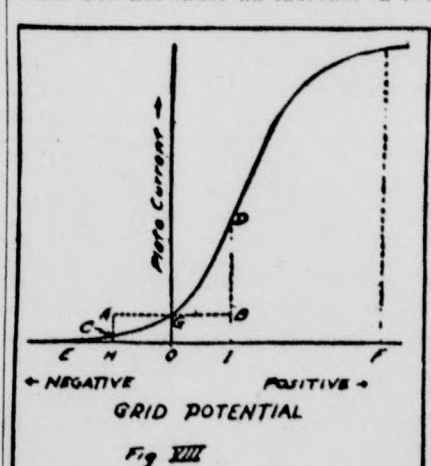

**Fig. VIII**

plate current because the electrons given off are being attracted to the plate and grid.

When the grid is maintained positive with respect to the filament a small current will flow in the grid circuit. Because of its being positive it will attract the electrons and have a charge given up to it by them.

From the Debutante's Diary

June 3—Oh, it was such a grand party and I had such a lovely time. Danced with Bob. Oh, Boy! Bob surely is a real fellow. His clothes always look so neat and clean and well-pressed. I do envy Helen. But I was so ashamed of Joe, I almost told him he couldn't come back. He lets his suit get so spotted and out of press—"apples" at the knees and creases gone. And Mother had hoped to match me with Joe.

June 27—Joe was over tonight. I'm so glad he came back. Some one must have told him. I guess it was Bob, because the last two weeks he has looked like a different man. His same clothes look like new since he's been sending them to the cleaners regularly to be cleaned and

pressed. He's coming back tomorrow night.

June 29.—The big event happened last night. Joe asked me to marry him and I said "Yes." We went to the theater, too, and I was so proud of Joe. All the folks looked at us as much as to say, "Lucky Girl," to have such a good looking beau. Joe looked so fine. His suit was spotless and perfectly pressed, his overcoat was the same and he was wearing a stiff, starched collar. He said the MONROVIA LAUNDRY had solved the problem for him. The Dry Cleaning Department was responsible for the appearance of the suit and overcoat and the laundry made the shirt and collar look so neat. I just hope every girl can be as lucky as I.

What is SHE saying about you tonight?

Famous Property Sold to Angeleno

Sierra Madre Villa Brings Fair Price; Second Sale Now Pending, Report

Monrovia Messenger—The sale is this week reported of the Sierra Madre Villa, a famous mountain property lying west of Sierra Madre and for a third of a century one of the show places of Southern California resort hotels. T. B. Wilson, Los Angeles capitalist, purchased the property of James Lyman and his sister, Miss Mary Lyman, of Chicago. The consideration is said to be approximately \$65,000, a figure considered very cheap.

It is rumored that though the sale is still in escrow, the new owner had already re-sold the villa, at a profit of something than \$25,000.

It is said that the newest owner of the seventy-five acres that constitute the property is planning to subdivide the big ranch, now principally in citrus orchards and will put it on the market in the form of high-class suburban and country home sites. The surrounding land is owned by wealthy Los Angeles business and professional men.

For many years Sierra Madre Villa was one of Southern California's leading hotels and many famous personages inscribed their names upon the register. Recently the old hotel building was wrecked.

NELSON-WEBB

Mr. and Mrs. L. J. Nelson, 647 Manzanita avenue, announce the marriage of their daughter, Sybil Catherine, to Mr. Charles Wilson Webb, of Denver, Colo., only son of Mr. and Mrs. Frank C. Webb. The ceremony was solemnized in the chapel of the Mission Inn at Riverside on the afternoon of Thursday at 5:30 p. m.

Miss Mildred Davis, of Los Angeles was the bride's only attendant, and Mr. Leon M. Nelson, of Sierra Madre brother of the bride, served as best man.

The bride entered the chapel to the strains of the Lohengrin Wedding March. "At Dawning" was played softly during the ceremony and this was followed by the Mendelssohn wedding march.

Mrs. Webb was very popular in Pasadena social circles, as well as Omaha and Denver, where she formerly resided with her parents. She is the possessor of a beautiful contralto voice and studied music and the languages at the Three Arts' Club in Chicago.

Mr. Webb is a graduate of Stanford University and was a lieutenant in the navy during the World War.

The bride's bouquet consisted of lavender orchids, valley lilies and pink sweet peas surrounded by a lavender lace frill. The groom's gift to his bride was a platinum and diamond wrist watch.

The parents of the groom came from Denver to attend the wedding.

A few friends motored to Riverside also to witness the ceremony and a reception was held in the Art Gallery followed by a dinner which was served in the Wedding Breakfast room. The table was unusually attractive, having at either end two huge baskets of pink gladioli, delphinium and maiden hair fern. In the center was the bride's cake. A further beautiful table decoration were the crystal candelabrum with lighted candles.

RUST-CHASE

On Thursday evening at 8 o'clock in the gardens of the Kraft home, the marriage of Miss Emmeline Rust of Pasadena to Mr. Gregory Chase of Sierra Madre took place. Dean W. C. Shaw officiated. The bride was attended by Miss Alice Thorgren of Pasadena, and Mr. Howard Wilson, also of Pasadena, acted as best man. The bride wore a beautifully embroidered gown of white Canton crepe and carried a bouquet of bride's roses, and lilies of the valley. The maid of honor wore a charming frock of pink organdy. The bride's mother wore a handsome gown of Harding blue crepe. After the wedding ceremony delicious refreshments were served and dancing was enjoyed in the pavilion which was decorated most artistically in yellow flowers and greenery.

The bride is the daughter of Mr. and Mrs. Charles Rust of Pasadena and a graduate of Pasadena High School. The groom is well known here, having lived here all his life, and is also a graduate of Pasadena High School, where the romance had its beginning.

Mr. and Mrs. Chase plan to make their home in Pasadena.

About thirty young people of Bethany church enjoyed a delightful outing last Thursday night. After a pleasant drive they were sumptuously entertained in the home of Mr. Needham who is leader of Bethany Bible Class.

ADDITIONAL BOOKS AT THE LIBRARY

More Good Summer Reading Now Available, Along With Radio Material

Radio reading matter is supplied now in abundance at the public library. The supply has been increased so those interested no longer have to wait their turn to get something good. In addition to books covering every phase of the subject, the back numbers of the Radio News and Radio Broadcast are now available for circulation. The following is a supplementary list of good summer reading placed on the shelves:

Benson, E. F., "Peter,"
Bindloss, "Man From the Wilds,"
Burbank, L., "Training the Human Plant."

Cox, Another Brownie Book.
Cox, "Brownies Through the Union,"
Harrison, "Study in Child Nature,"
Masters, E. L., "Children of the Market Place."

Moore, "What to do", a practical handbook for motorists.

Packard, "Doors of the Night,"
Philpotts, "Pan and the Twins,"
Putnam, "Tomorrow We Diet,"
Raine, "Mansize."

Sinclair, May, "Life and Death of Harriett Fren."

Townsend, "Country Life Book of Building and Decoration."

Upright, "Valley of Content,"
Webster, "Daddy-Long-Legs,"
Wiggin, "Rebecca of Sunnybrook Farm."

Wells, H. G., "Secret Places of the Heart."

Mrs. Eva Moore will teach pupils (of any grade) in the kindergarten building during the month of July, between the hours of 8 and 12, mornings, beginning Monday, July 3. Reasonable terms.

Skillful Mountain Climber.

M. Samuel Turner, F. R. G. S., who arrived in England recently, alone planted the British ensign on the summit of Mount Cook, New Zealand. It took him 72 hours without sleep, 46 hours of which was actual climbing and 24 of it step cutting. The successful climbing he has accomplished during his stay in New Zealand should, it is suggested, fit him for the Mount Everest expedition.

Tribute to Wilbur Wright.

For the purpose of handling aircraft at sea and giving a greater range to the vision of those in command of the maneuvers of battleship squadrons, the United States navy is adding to its flotilla of ships a balloon and airplane carrier. The vessel is named in tribute to Wilbur Wright, from whose genius the development of aviation derived so much of its impetus.

Change Wrought by Peace.

During the war the rowboats, dories, sharpies and small catboats on Great South bay ran largely to such names as Superdreadnaught III, Invincible, Jr., Bomb, Rapid Fire and Scout. Now one sees painted on the stern of singular craft: Peaceful Polly, Sally Lunn, Sister Sue and Margery.—New York Evening Post.

She Knew.

Golden-haired Virginia, of three-and-one-half years, asked her mother the meaning of airplane. Not waiting for an answer, she said: "Mother, don't you think it is called airplane because it is up in the air and plain to be seen?"

Rooster With Two Hearts.

While cleaning a rooster a few days ago, says a Manitoba reader, she found the bird had two hearts. One was a little bit smaller, otherwise they were both alike, joined together by a tiny tube.

NOTICE TO CONTRACTORS

The Board of Trustees of the Sierra Madre City School District will receive sealed proposals for the following work to be done on the school buildings and grounds thereof: For an addition to the Domestic Science Building, for new roof on part and repair on other roofs of Main Building, cement paving on portions of grounds, Retaining wall across grounds, and drain pipes for water from buildings. Separate bids to be made on each of above items.

Plans and specifications are in the hands of Mr. Geo. S. Anderson, 375 Mariposa Ave., Sierra Madre, Calif.

The Board reserves the right to reject any or all bids and the contractor will be required to furnish an approved bond for 75 per cent of the contract price.

All bids must be in the hands of William Carson Shaw, chairman of the board by 2 o'clock p. m., July 21, 1922.

By order of the Board of Trustees.
Wm. Carson Shaw, chairman,
Ethel H. Hawks, clerk,
Geo. S. Anderson, trustee.

Dated June 27, 1922. 39-41

Points the Way—for Others.

We are not disparaging idealism, but an "idealist" is too frequently a man who has high notions of what the other fellow ought to do.—Boston Transcript.

Lake Arrowhead Unique

(Continued from Page 1)

homes and lodges in the various subdivisions. A wonderful dance pavilion has a capacity of five hundred dancers.

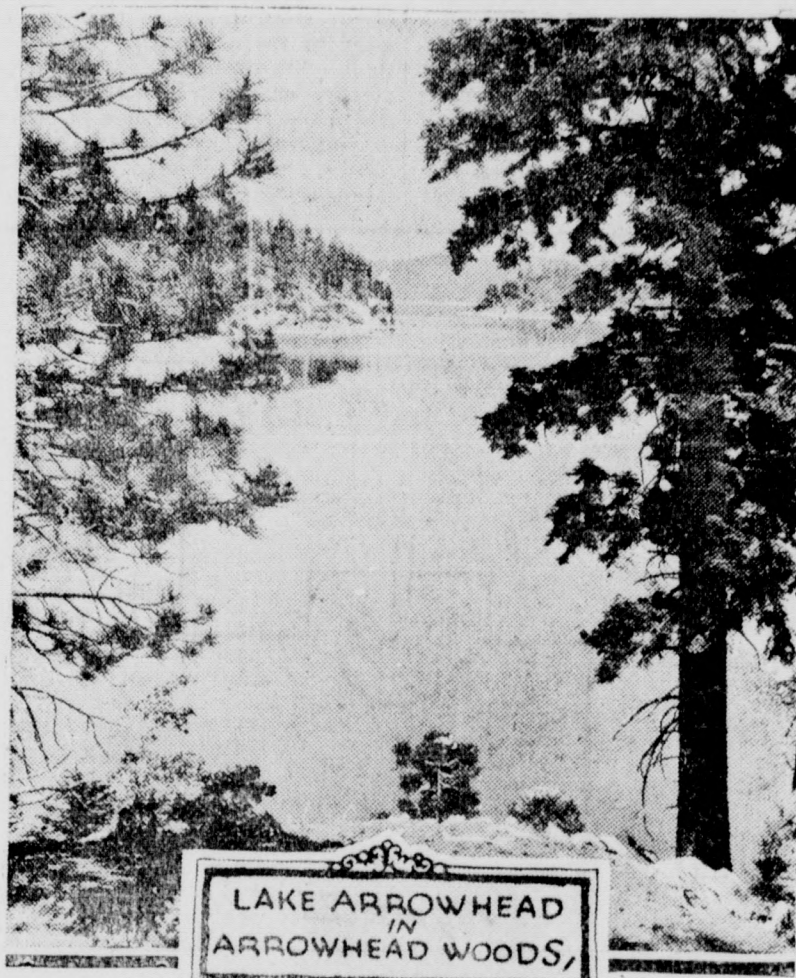

Where The Editors Stayed

Fleming Grove, nestled in a marvelous canyon of cedar and fir, is "America's most delightful mountain camp." Unlike the usual hodge-podge way of handling people, Fleming Grove expresses a real individuality for, an

attraction of a wonderful golf course calls to mind just one other instance of the completeness of the entire plan.

A free automobile park is maintained where you may park your car for a day's stay without charge.

The entire conception of this gigantic enterprise is so bewildering that at first one cannot grasp the scope of this development. The millions necessary to complete the plans, the sheer weight of the endeavor as a task for men to accomplish, or the tremendous benefit that Southern California has already begun to reap from the very glory of Arrowhead Woods.

ranged along the length of the canyon are tiny bungalows and canvas cottages. They are placed row on row, but each with an individual setting along the babbling creek or underneath some massive cedar bough. It is indeed the "Paradise Enow" that "Omar" sings about. A central lodge has been placed at the entrance of Fleming Grove and the guest may determine whether he wishes house-keeping or non-housekeeping accommodations.

An Automobile Camp has been laid out in a fifty-five acre section adjoining Orchard Creek, and is equipped with every modern convenience, hot and cold showers, modern comfort stations, garage collection, police patrol protection, fire places and wood, and here, too, the idea of primitive lure has been carried out and each motor camp site selected for its view.

Club Facilities

On the north of the Lake a most delightful Club House is in operation, surrounded by attractive bungalows with tennis courts and bowling green for members. Within a year added

And it is gratifying to know that this glory will be maintained and perpetuated for all time, that no tree can be cut without a permit, that every lot sold carries as rigid a restriction as to beauty of construction as any city restriction.

It is possible to picture with words only a crude outline of the beauties of Lake Arrowhead. It is really impossible to convey the lure and charm of Arrowhead Woods, but it is possible to give thanks for the thing which has held for generations this entire region and saved it for a complete and comprehensive plan. To think that it is possible for us, as individuals, to find in this great Universe that charm of virgin wood and sparkling lake, to have and to hold by right of purchase an heritage from primeval times. This is all possible, for with the organization of this comprehensive scheme there has now been completed a sales organization which has been put into operation under the direction of Andrew Warmington offering an opportunity for Californians to own their own "bit of wilderness."

FOR SALE—Misses bicycle, cheap 77 South Lima. 3-9*

Friday, July 7—Dance, given by Phi Delta Pi Sorority, at Woman's Clubhouse, \$1.10 per couple.

FOR RENT—Good 3-room house completely furnished. 171 E Montecito. 3-9*

AUTO FOR HIRE—Easy riding six-cylinder car to go anywhere. D. N. Alcorn. Phones Blue 2, Green 63 or Green 2.

FOR SALE—Sanitary couch and pad, used 6 weeks. Half price. Black 134. 3-9*

LOST—A Madeira handkerchief, at Women's Clubhouse on the night of the graduation. Finder please notify Virginia Barbour. 38c

FOR RENT—Furnished 5-room modern bungalow, sleeping porch, garage, front close to car and schools. Lease to desirable party at reasonable rental. Call 270W. Highland. Phone Red 71. 3-9*

TO LET—\$150 per month. Beautiful residence, fully furnished, including piano, organ, gramophone, linen and china; spacious grounds improved with fruits, flowers and shrubs; servants' quarters, double garage, large, cool porches; all conveniences, electric washer, mangle, etc. This is one of the most desirable places in Sierra Madre. Owners going away for a couple of months. See any agent or phone Red 123. 3-9c

FOR SALE—29 W. L. laying hens \$25. Fryers 50 cents each. 270 W. Highland. 3-9*

FOR SALE—Chevrolet 490 touring, excellent condition, bargain for quick sale. 270 W. Highland. Phone Red 71.

FOUND—Bunch of keys. Identify and pay for ad. News office.

FOR RENT—Room, closet and bath, completely furnished, water, gas and electric light paid for. Cooking facilities in separate building. \$15 per month. Phone Black 1, 457 North Lima Street. 3-9*

WANTED—Woman for housework and cooking, 2 in family. Address 41 North Mountain Trail. Blue 63. 3-9c

FOR RENT—4-room unfurnished modern house, 330 West Central. 3-9*

I wish to announce that I will do hemstitching and piecing at my home, 61 Windsor Lane after July first. Prices: eight cents per yard straight or scallops, except silk thread, which will be ten cents. All work guaranteed and will appreciate your patronage. Edna O. Hawley. 3-9*

FOR SALE—Goat Milk. Goat fertilizer, \$1.00 per sack delivered. Black 26. 41*

SAWS FILED—Lawn mowers sharpened, Work called for, Black 26. 41*

FOR RENT—Furnished Apartment, Mrs. C. B. Reas, 223 San Gabriel Ct. Phone Blue 155. 35ctf
